PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building end-to-end web applications using React.js, JavaScript (ES6+), HTML5, CSS3 on the frontend and Java, Servlets, JDBC, MySQL on the backend. Proficient in REST API development and integration, responsive UI design, and database management. Passionate about delivering scalable, user-friendly full stack solutions across the complete software development lifecycle.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Web Design
- **React Skills:** React Hooks (useState, useEffect), Functional Components, JSX, Props & State Management
- **Backend:** Java, Servlets, JDBC, OOP, CRUD Operations, REST APIs
- **Database:** MySQL, Database Design, SQL Queries
- **API Integration:** REST APIs, Fetch API, Async/Await, JSON, OpenWeatherMap API, OMDB API
- **Tools & Platforms:** Git, GitHub, VS Code, Eclipse, Vite
- **Concepts:** Data Structures & Algorithms, SDLC, MVC Architecture, Cross-browser Compatibility, Mobile-first Design

EXPERIENCE

Full Stack Developer Trainee

Sep 2025 – Present

Cetpa Infotech Pvt. Ltd., Noida

Onsite

- Developed full stack web applications using React.js, HTML5, CSS3, and JavaScript on the frontend and Java Servlets, JDBC, and MySQL on the backend following MVC architecture.
- Built reusable React.js components with React Hooks (useState, useEffect) and integrated REST APIs using Fetch API and async/await for dynamic data rendering.
- Designed and managed MySQL databases implementing CRUD operations, user authentication, and data validation for end-to-end application functionality.

PROJECTS

Bank Management System

Java, Servlets, JDBC, MySQL, HTML5, CSS3, JavaScript

2026

github.com/Aashni17/Bank-Management-System-Java

- Developed a full stack web-based banking application with user registration, secure login authentication, and account management using Java Servlets and JDBC following MVC architecture.
- Designed and integrated MySQL database to manage customer records and banking transactions, implementing CRUD operations and server-side data validation for secure data handling.

CineSearch – Movie Search Application

React.js, JavaScript, OMDB REST API, HTML5, CSS3

2026

github.com/Aashni17/CineSearch-Movie-Search-App

- Built a responsive React.js movie search application with reusable components and React Hooks (useState, useEffect) for dynamic state management and component-based architecture.
- Integrated OMDB REST API using Fetch API and async/await to dynamically render movie data with loading states and error handling for seamless user experience.

WeatherNow – Weather Application

React.js, JavaScript, OpenWeatherMap API, Geolocation API, CSS3

2025

github.com/Aashni17/WeatherApp-React

- Developed a real-time weather application using React.js with city search and current location detection via Geolocation API, displaying temperature, humidity, wind speed, and visibility data.
- Integrated OpenWeatherMap REST API with async/await and implemented conditional UI rendering for loading states and error messages for a smooth user experience.

CERTIFICATIONS

- HackerRank Java (Basic) Certificate – 2024
- Apna College: Data Structures & Algorithms with Java – 2024
- Cetpa Infotech Pvt. Ltd.: Full Stack Java Developer – 2025

EDUCATION

B.Tech. in Computer Science & Engineering

Graduated: 2025

R.R. Institute of Modern Technology, Lucknow

CGPA: 8.42 / 10
